## scia Systems received a Supplier Excellence Award from Qorvo

scia Systems GmbH, a supplier of wafer processing systems for milling, trimming, and deposition of thin films, has received a Supplier Excellence Award from Qorvo in appreciation of scia Systems' quality, on-time delivery, and support.

"Qorvo had a need to rapidly expand production capacity of their fab in Richardson, Texas in order to fulfill orders from key customers," said Michael Zeuner, CEO of scia Systems GmbH. "It was quite a challenge, but by working together with Qorvo engineering and supply chain groups, we were able to meet their schedule and performance requirements. This Qorvo Supplier Excellence Award recognizes the hard work and ingenuity of both the scia Systems and Qorvo manufacturing teams, and we're very proud of these joint accomplishments."

Howard Witham, Vice President, Texas Operations, Qorvo (left) hand over the Supplier Excellence Award to Michael Zeuner, CEO of scia Systems GmbH (right).

Howard Witham, Vice President, Texas Operations, Qorvo, said, "scia Systems was able to deliver systems when we needed them, along with excellent technical support. At the same time, they helped us to increase the productivity of existing machines. The quality and dependability which scia Systems delivered makes it a partner Qorvo can rely on. I am very pleased to present this Supplier Excellence Award to the people of scia Systems, and thank them for their hard work and dedication."

### About Qorvo

Qorvo is a leading provider of core technologies and RF solutions for mobile, infrastructure and aerospace/defense applications. Qorvo was formed following the merger of RFMD and TriQuint, and has more than 7,000 global employees dedicated to delivering solutions for everything that connects the world. Qorvo has the industry's broadest portfolio of products and core technologies; world-class manufacturing facilities; and is a 'Trusted Source' for GaAs, GaN and BAW products and services. For the industry's leading core RF solutions, visit [www.qorvo.com](http://www.qorvo.com)

### About scia Systems

scia Systems GmbH, designs and manufactures specialized trimming, milling and deposition systems which help the MEMS, optics, and semiconductor industries to improve performance and increase yield. With headquarters in Chemnitz, Germany, the company operates through offices and partners in Europe, North America and Asia-Pacific.
